HACKATHON
Pittsburgh 2018

Registration is now open for our spring 2018 Pittsburgh Hackathon!

Bayer would like to invite your students to hack solutions for Science for a Better Life. The Hackathon brings together Pittsburgh's brightest student minds to use technology to turn ideas into reality for a chance to win awesome giveaways and prizes. Students will have the opportunity to develop creative solutions to one of Bayer's IT business challenges in the area of Chat-Bots.

We ask that prior to registering, students form their teams and then register individually at *hackathon.bayer.com*

- // **When:** Saturday, April 14th & Sunday, April 15th 2018
- // **Where:** Alloy 26 / Nova Place - 100 South Commons Street, Suite 102, Pittsburgh PA 15212
- // **Who:** Teams of 3-5 student innovators, tinkerers, and technology gurus
- // **What:** Chat-Bots & Big Data
- // **Why:** Help Bayer bridge the gap between tech and Life Sciences!
- // **How:** Stack your team with designers, developers, communicators, project managers, data scientists and enthusiasts!
